

ASHBY BATH SHORTENER

REDUCES THE LENGTH OF A BATH.

KEY FEATURES

- Safety in the bath for shorter people
- Prevents slipping down
- Four suckers attach securely

Reducing the internal length of the bath, it allows shorter people to rest their feet on something solid for added safety and comfort.

Four large suckers secure the Shortener to the base and side of the bath and are easily removed when needed.

A hole in the base allows water to enter; and a breather hole under the handle allows air to escape, meaning that it doesn't interfere with filling or draining the bath.

The Ashby Bath Shortener is only suitable for baths with a smooth, non-textured base.

DERBY TAP TURNERS

PROVIDES ADDITIONAL LEVERAGE TO TAPS.

KEY FEATURES

- Suitable for both cross head and crystal taps
- Large colourful handles for easy identification
- Quick to fit, no tools needed

Standard household taps can be difficult to turn, especially for those with poor grip or arthritis. Derby Tap Turners can solve this problem by providing large textured handles which are easier to push.

The screw-in handles grip the tap with a soft non-slip inner lining, providing the extra leverage needed to turn the taps with ease. They can be used on both capstan and crystal type taps, with no tools required.

Colour coded in red and blue to allow users to quickly identify the correct tap.
